

# New Visitor Restriction Policy

Updated Saturday March 14<sup>th</sup>

As the situation surrounding COVID-19 (novel coronavirus) continues to evolve and change CarePoint Health is restricting all visitation. Please see details below. The safety of our patients, team members and our community are our main priority during this time.

We take these proactive precautions to protect our patients, team members, and our community. We are sensitive to the separation this restriction causes our patients and their loved ones, but we believe this measure of protection is essential at this time to keep people safe. Phone and video calls to patients are encouraged as a mean of communication with your loved ones.

Thank you for your understanding.
